Horticultural Therapy: Techniques and Programming  
(3.0 credits)

Normally Offered:  Spring every other year (even numbered years only).  By Joel Flagler.

Pre-requisites and other registration restrictions:
none

Format:  One 2.5 hour class meeting weekly

Description:
This is an introductory level course for those with an interest in pursuing a BS degree or Certificate in Horticultural Therapy. This course will explore a number of applications including developmentally disabled, children, and seniors. Also covered will be topics of starting programs from the ground up, marketing, nature craft, and consulting in Horticultural Therapy. This course is accredited by the American Horticultural Therapy Association and counts toward professional registration.

Learning Goals:
• Students will learn about setting goals and selecting activities to meet goals
• Creating successful gardens with children and elders will be well understood
• Students will gain confidence in marketing skills and potential consulting work

Measures of Assessment:
• Hourly exam, midterm exam, final exam
• Individual semester project
• Class discussion
